

PONTEDERIACEAE

Pickerelweed family

Pontederia cordata L.

Pickerelweed

Edge Hill University S Hartnett, 2024

Status & distribution: Neophyte-naturalised; Rochdale Canal (SD80W, GM Kay & PD Stanley, 1993, Herbarium GM Kay); Estuary Boulevard, Speke (SJ4183, J Somerville, 2008); Victoria Park, Waterloo (SJ3198, DP & J Earl, 2021); Edge Hill University (SD4207, S Hartnett, 2024).

Habitat: Canal and pond margins.

Comments: Native to North America.

Eichornia crassipes (Mart.) Solms-Laub.

Water Hyacinth

Status & distribution: Neophyte-casual; Leeds & Liverpool Canal by Brewery

Lane, Melling (SD3800, Liverpool Botanical Society, 2014, det. J Clarke).

Comments: Native to South America. Not seen on a return visit so perhaps lost following winter frosts.
