

ESCALLONIACEAE Escallonia family

Escallonia rubra (Ruiz & Pav.) Pers. var.
macrantha (Hook. & Arn.) Reiche

Escallonia

Status & distribution: Neophyte-surviving; considered to be widespread but perhaps less frequent than *Escallonia* x *langleyensis*.

Habitat: Amenity plantings.

Comments: Native to Chile.

Escallonia x *langleyensis* Veitch = *E.*

rubra x *E. virgata* (Ruiz & Pav.) Pers.

Langley

Escallonia

Otterspool DP Earl 2009

Status & distribution: Neophyte-surviving; now widespread as a planted shrub generally close to habitation.

Habitat: Amenity plantings, occasionally found along streambanks, wood borders, waste ground and amongst walls.

Comments: Of horticultural origin. Some of the records may be of *Escallonia rubra*.
