A KEY TO RUBUS SYNONYMS IN DANDY. EDEES & NEWTON. KENT.

DANDY. LIST OF BRITISH VASCULAR PLANTS

EDEES & NEWTON. BRAMBLES OF THE BRITISH ISLES

KENT. LIST OF VASCULAR PLANTS OF THE BRITISH ISLES

PREFACE

While helping David Earl to bring up to-date the nomenclature of the Rubus collection at BOLTON it very soon became obvious that some sort of "key" would be useful to bring together the three lists we were checking through, i.e. The Dandy list, The Edees and Newton list and the Kent list.

All the lists contained synonyms, sometimes the same but often differing one from the other. What began as a "simple cross referenced list of the commoner names and their synonyms" soon proved impractical when put to the test on sheets from the mid 1800's and a more comprehensive list was called for. The present list contains some 1,400 cross referenced items.

Information on many of the British Rubi Sets was not available unfortunately and this would have been a great asset but some are included at the end.

It is hoped that this key will be found useful to anyone updating nomenclature of a Rubus herbarium collection.

Comments or suggestions for improvement will be gladly received by the author.

My thanks to David Earl, and Pat Francis at BOLTON Museum for help and for persuading me to improve my first simple cross referenced list.

January 1994

Eric Kearns
228 Turncroft Lane

SK1 4AX

KEY

Names in **Bold** lettering.....Species Name
Names underlined.....Synonym

phaeocarpus babingtonii

Each name appears at least twice in the cross referenced alphabetical list.

To save space the accepted abbreviations have themselves been abbreviated.

v.....variety
s.....subspecies
f.....forma
m.....microgene

D.....Dandy
K.....Kent
EN.....Edees & Newton

Where all three authorities agree on names all their list numbers are on the same line.

D146 K132 EN126 sprengelii
D 52 K112 EN107 selmeri **nemoralis**

Where less than the three agree on a name only the numbers of those agreeing are quoted.

D305		EN268	**phaeocarpus**	babingtonii
	K280		**phaeocarpus**	
	K277	EN265	**naldretti**	mutabilis v naldretti
D 52	K112	EN107	**nemoralis**	selmeri

D 55		EN 63	nemoralis	**oxyanchus**
		EN107	**nemoralis**	vulgaris v glabratus
		EN 94	nemoralis	**daveyi**

British Rubi Set numbers

A * before a name denotes that this rubus has a British Rubi Set Number using the opposite synonym. Refer to Appendix 1.

A } before a name denotes that this rubus has a British Rubi Set Number but DOES NOT INFER THAT THE SYNONYM OPPOSITE THIS NAME IS THE CORRECT ONE. Refer to Appendix 1.
